History our organization

Serene Secular Social Service Society commonly known as **SSSSS** was promoted by a group of socially committed activists. It was formally registered under the Registration of Societies' Act, Tamilnadu, in the year 1994 vide number 55/94. The organization was promoted as a response to the growing marginalization of women's rights and to overcome the male dominance and patriarchal practices that adversely affect the rights of women. Since its inception the organization has been working among the women, girl children and adolescent girls belonging to the Dalits, Tribal and Valayars communities and the agricultural women. This society is started particularly to give more importance to women empowerment and for their growth, especially giving awareness about their health and their rights in the society. Sanarpatty block is industrially and economically backward area, so the rural poor facing hardships to lead life because of this they send their children for works instead of schools, so the dropout rate was increasing, to reduce this problem we provide education to these children.
